UPTODATE HELPS YOU FIND INFORMATION QUICKLY AND EASILY

TAP INTO THE WORLD'S LARGEST CLINICAL COMMUNITY

For more than 20 years, UpToDate has been providing our community of over 1 million clinicians with unbiased, continuously updated, evidence-based, practical recommendations to make the right point-of-care decisions.

UpToDate is one of the world's most trusted clinical information resources. In fact, independent research shows that clinicians turn to UpToDate more than almost any other resource to find answers to their clinical questions.¹

Find out for yourself why your colleagues prefer UpToDate to other information resources.

- **More than 10,500 topics cover more than 20 specialties**, and additional specialties are in development.
- **CME credit, CE contact hours, and CPD time tracking** are available if you access UpToDate as a registered user.*
- **Unlimited access** from any location through your computer or mobile device browser and through our award-winning Mobile Apps allows you to find answers anytime, anywhere*
- **Optimized search capabilities** allow you to enter multiple terms to find fast, accurate clinical answers.
- **Enhanced search results** provide links to the sections and graphics within a topic that are most likely to answer your clinical question.
- **Graphics search** allows you to search more than 28,000 graphics, view results in an easy-to-scan thumbnail format, and directly access topics that reference a graphic for more information. Export, print, or email as needed.
- **Search in Your Own Language** enables queries and navigation in 9 languages.
- **More than 400,000 references and citations** (Medline) provide evidence-based content.
- **More than 9,600 graded treatment recommendations** allow you to assess the quality of the evidence and the strength of the recommendation.
- **A select drug database and drug interactions tool** (in partnership with Lexicomp®) features more than 5,400 adult, pediatric, and international drug monographs.
- **What's New and Practice Changing UpDates** call attention to important new findings by specialty.
- **More than 1,500 patient education topics** help you inform your patients and encourage shared decision making.

Answer clinical questions with UpToDate

1

Enter a word or phrase in the New Search box.

The more specific your search, the more likely it will return the desired results.

Filter your search results.

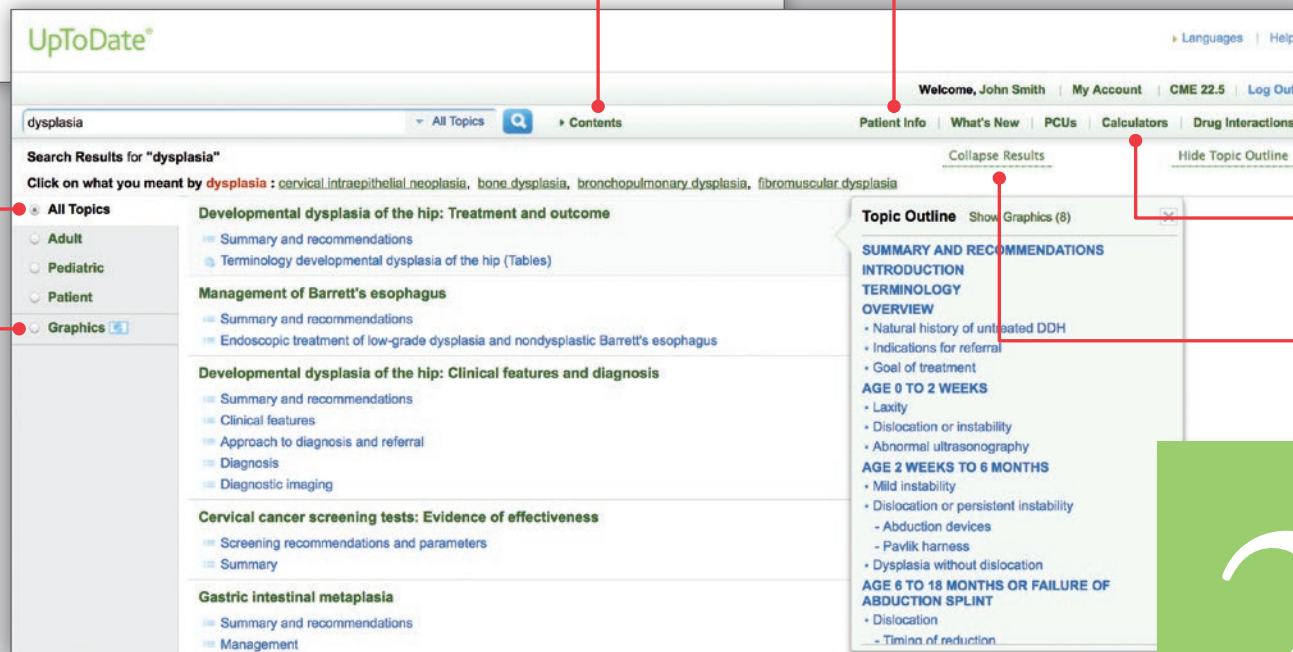

Modify your user name and password or update your account information.

View Practice Changing Updates (PCUs).

Learn "What's New" by specialty.

Review list of topics within each specialty.

Access patient education to share with your patients

Access drug interactions program, in partnership with Lexicomp®.

Calculate many different medical measures.

Personalize your view by collapsing or expanding results or hiding the topic outline.

Hover over a topic to see the full topic outline. Click on a link to go to a specific section.

Prioritize the order in which topics appear on the search results page or filter your search over Graphics only.

2

Review Search Results.

Enhanced search results display the topics, sections and graphics that are most likely to answer your clinical question.

3

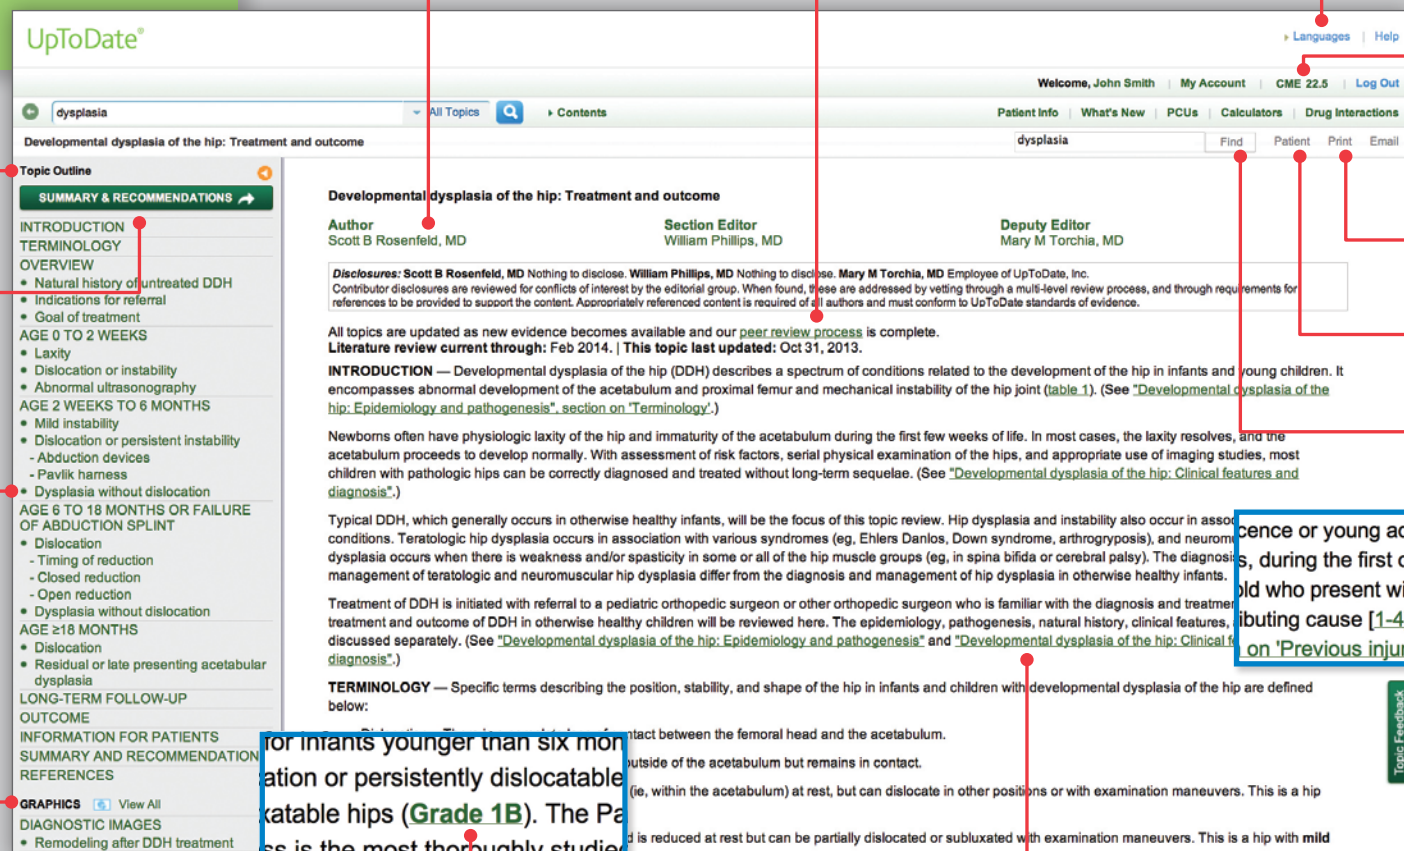

Research the Topic.

Over 10,500 evidence-based medical topics provide the information you need for optimal patient care.

Link to information about authors and editors.

View the date that the topic was last modified, based on continuous review of the latest research.

Search UpToDate topics in Multiple Languages.

View a detailed outline within each topic.

Click to go directly to summary and treatment recommendations.

Click on a heading to go directly to the information you need.

View all Graphics associated with a topic in a thumbnail format.

for infants younger than six months or persistently dislocatable hips (Grade 1B). The Pass is the most thoroughly studied only used abduction splint. (See

UpToDate is accredited and recognized by colleges, associations, and authorities from around the world, and is a globally accepted information resource and learning tool. To see if you can use UpToDate to fulfill CME requirements in your country, or specialty, please visit www.uptodate.com/cme for the most current list of CME requirements. The ability to earn CME credit is not available in all countries, and it is up to each user to determine whether his or her use of UpToDate qualifies for CME in any particular country/specialty.

For demos, visit www.uptodate.com/demo.
